PADI Courses

PADI®

Multi-Level Diver

The Multilevel Diver Specialty Course is designed to be a safe, supervised introduction to multilevel diving. You will be exposed to a variety of different types of multilevel dive calculators (the wheel and various types of dive computers). Topics covered include: the planning, organization, procedures, techniques, problems and hazards of multilevel diving, the definition and advantages of multilevel diving, methods of calculating multilevel dives, as well as review of decompression sickness theory, emergency decompression procedures and PADI's S.A.F.E campaign. Other topics will include procedures for flying after diving, guidelines, rules & procedures for multilevel diving with the Wheel and / or diving computers & care and maintenance of dive computers.
