## Custom Beach Dives

Looking for a little variety? Custom Beach Dives offer one of the best ways to explore the diverse reefs of our coves and bays as well as those formed on ancient lava flows. These reefs support a variety of marine life which includes green sea turtles, spotted eagle rays, manta rays, moray eels, shrimp, crabs, lobster, white tip reef sharks, octopus, and numerous tropical reef fish. A dive professional knowledgeable in both the marine life and diving conditions guides each Custom Beach Dive. The dive guide will select the best dive sites for the day based on prevailing conditions, divers' skills, and divers' personal interests. Dives are conducted in small groups and include a pre-dive briefing with safety tips, marine life sighting and identification tips, and navigation plans. The day program includes 2 dives and the night program offers 1 dive. All necessary diving equipment is provided at no additional cost. Digital underwater cameras are available for rental or purchase at Maui Dive Shop.
